SUMMARY

A dedicated and innovative educator with a strong foundation in Primary School Teacher Education and a passion for integrating technology into pedagogical practice. Proven ability to design and deliver engaging, student-centered lesson plans that foster academic improvement and classroom participation. Leverages a unique hybrid background in software engineering to develop interactive learning media and modernize educational workflows. Seeking to apply instructional design expertise and technical proficiency to create dynamic and effective learning environments as an Education Practitioner.

EXPERIENCE

- Student Teacher

2024-01-01 — 2024-12-31

 - Designed and implemented differentiated lesson plans for grades 1-6, accommodating diverse learning styles and needs to maximize student engagement and concept mastery. Fostered an inclusive and dynamic classroom environment by utilizing digital tools and interactive media to simplify complex subjects and enhance content delivery. Assessed student learning through formative and summative methods, using data to track progress and adapt instructional strategies for improved learning outcomes. Collaborated with supervising teachers and school staff to align curriculum with national educational standards and best practices.
- Private Tutor

2021-01-01 — 2022-12-31

 - Diagnosed individual learning gaps and developed personalized learning programs for elementary students, leading to measurable academic improvement and increased confidence. Created custom educational materials and activities tailored to each student's unique learning pace and style, demonstrating a commitment to student-centered education.
- IT & Operations Intern

2019-01-01 — 2019-12-31

 - Managed and validated critical data with 100% accuracy, developing a keen eye for detail applicable to student record-keeping and assessment data management. Communicated effectively with clients to resolve inquiries, honing the problem-solving and interpersonal skills essential for parent-teacher interactions. Maintained web content to ensure information clarity and accuracy, a skill transferable to managing classroom websites or digital communication platforms.

EDUCATION

- Universitas Muhammadiyah Prof. Dr. HAMKA

2021 — 2025

S.Pd. - Primary School Teacher Education

- Instructional Design
 - Classroom Management

- Educational Media
 - Curriculum Development

- Learning Psychology
- Vocational Highschool 2 Gambir Jakarta Pusat

2018 — 2021

- Software Engineering

SKILLS

- Education & Instructional Skills:

Instructional Design, Curriculum Development, Student Assessment, Classroom Management, Differentiated Instruction, Collaborative Teamwork, Adaptability
- Technical & Digital Learning Skills:

Educational Technology Integration, Interactive Media Creation, Learning Management Systems (LMS), Web Maintenance, Data Management
- Programming & Development:

HTML, CSS, JavaScript, React.js, Next.js, Firebase
- Administrative & Communication Skills:

Parent-Teacher Communication, Google Workspace for Education, Microsoft Office Suite, Document Management, Problem-Solving

PORTFOLIO & PROJECTS

- Headless AI Automation Engines:** Architected a scalable FastApi backend with strict Pydantic webhook validation and OpenAI LLM state-machine orchestration for zero-fault lead routing. (Python, FastApi, OpenAI, Make.com)
- Production-Grade Web Scraping:** Engineered fault-tolerant headless browser scripts using Playwright and Scrapling to execute asynchronous DOM manipulation and bypass captchas in massive-scale automation flows.
